Do you know that Serious Sam HD: The Second Encounter is a first-person shooter (FPS) game for the PC?Q: Rails 6.0.0.1 and Rails 5.2.0.0 I have a rails app that I am running on rails 5.2.0.0 and I also have another rails app that is running on rails 6.0.0.1. I am hitting an issue where my app on rails 6 is unable to generate a model from the schema.rb file and the other rails app on rails 5.2 can generate the model just fine. How can I configure the older app to generate models with rails 6.0.0.1? A: 1) First of all, the actual issue was caused by a conflicting issue with the gem version. In my case, I had the following issue: [10:44:36] rake assets:precompile RAILS_ENV=production To address this, I added the following to config/application.rb: config.assets.version = "1.0" config.assets.compile = true config.assets.digest = true config.assets.version = "1.0" 2) After addressing the issue above, I was still unable to generate models from the schema.rb file. So I kept digging and in my case the following configuration parameters were throwing errors: config.active_record.schema_format = :sql config.eager_load = false config.cache_classes = true config.eager_load is deprecated as of Rails 5.1, and in Rails 6.0.0.1,
