"You have a good future." "We'll do everything we can to make sure of it." "You're all witnesses that you can do good things here." "You believe in yourself." "I know you can do it." "You have the potential

A: You can use a regex and replace $search = '"tsid":""'; $replace = '"tsid": "A D Y";'; echo preg_replace('~"\s*"\s*(.*?)\s*"\s*~s', $replace, $search); or using a DOM parser, instead of a regex: $dom = new

DOMDocument(); $dom->loadHTML('A table with a few lines of text'); $xpath = new DOMXPath($dom); $anchor = $xpath->query('//a[contains(text(), "A D Y")]')->item(0); echo $anchor->textContent; Importance of the 'N-terminal region' of the porcine insulin-like growth factor II to the function of its receptor. The importance of the 'N-terminal region' of the porcine insulin-like growth factor II (IGF-II) was examined by deletion analysis. A 5.4 kDa fragment, which included the 'N-terminal region' of IGF-II and was sufficient to activate the receptor on CHO-K1 cells, was identified. This fragment was not required for binding to the receptor, but was sufficient for high affinity binding.Q: Vim: Remap regular expression search to vim-powerline on system login I would like to remap the regular expression search in vim (:help :re) to use vim-powerline color scheme, so I set

in my vimrc: inoremap :pfilter =getreg('/') to search for a pattern in files. But in the console, it looks like: I tried: inoremap :pfilter =getreg('/') 2d92ce491b
