nintendo nes64 blog Nov 15, 2016 In order to celebrate the 15th Anniversary of the NES, I've made a NES port of Dino Dino Jungle, for the Nintendo 64. The game is generally excellent, with great gameplay, graphics and music, and is a solid match to the first one in terms of style and concept. Disclosure: It is a ROM hack. Enjoy :) Feb 19, 2019 RedMakaOne here with my RetroNes project: The original and highly-beloved 'Munch Munch', with a SNES or N64 port. The original NES port of GopherQuest was made by CodeMasters, the publisher and developer behind many NES games, including Contra II, Xevious, Frogger, Ghostbusters, etc. Since then, many clones and remakes of it were made, such as EMU and Nes-Mapper, or RetroNES and the RetroNes project that I am involved in. However, I have decided to continue developing my own clone, with the resources of the RetroNes project, and I am pleased to announce the release of GopherQuest with my own project: RetroNes GopherQuest, a functional and fully-working NES emulator. Of course, I don't intend to stop there. I will keep developing it and add new features and functionality, including gameplay improvement, bug fixes and performance improvement.
