Hahn Does a 1935 Plymouth have more value today than one from 1933? That question—worth a billion?—is explored in Building Books' Vintage Rolls. The essay looks at six vintage cars: a 1911 Ford, an old Duesenberg, a 1929 Lincoln, a '32 Chevy, a '33 Cadillac, and a '35 Plymouth. The cars start with a history lesson, then move on to the nuts and bolts of what a car is worth. On the Duesenberg, for example, Hahn explains how the strong points of the car are made clear by how the black lines appear in the fender panels.
