
Macbook A1181 Original Os Download

Feb 17, 2015 - Some time ago I purposely installed windows on top of the OSX partition... However, you'll need Snow Leopard first to be able to boot Lion.. . But if you already own Snow Leopard and want to install Lion on top of it, I can show you how. I found installing on top of Snow Leopard really easy, and if you're familiar with installing Ubuntu 12.10 or Mint using Parallels, or you're familiar with Parallels Desktop, it shouldn't be that hard. Also, you don't need Snow Leopard, you will need Snow Leopard or OSX 10.6.2 or later.
