in a quick and easy way.
Plus, add special effects
and crop images.
ShowMe is a graphics
software application
developed by Hitachi
Software America
Corporation that adds
some cool features to
the Microsoft Office
PowerPoint. The
software is aimed at

generating animated slideshows from any file type in a short period of time. X-Lite is one of the best and best titles of PPT/PPTX Slides. It is a PowerPoint, PPT and PPTX slideshow maker which enables you to create animated PowerPoint slideshows. Besides that, it is free but has small limitations. MemoCenter

Pro SlideShow allows you to create slideshows using any presentation of any style (for example: PPT, PPTX, PPS, PPSX, PPTM, PPSM, etc.). The slideshows can be used on the web. It features a wizard that helps you create a slideshow for a web page in a few minutes.

LAVAAGRA Adaptive Automatic SlideShow

documents or web
pages. CoolSlider is a
free and easy to use
PowerPoint slideshows
creator that allows you
to create single
slideshows or
animations for your
documents or web
pages. CoolSlider is a
free and easy to use

PowerPoint slideshows creator that allows you to create single slideshows or animations for your documents or web pages. Designed for Windows 7, CoolSlider is a free and easy to use PowerPoint slideshows creator that allows you to create

ShowPoint Activator Free

A tool that will play PPTs at a remote display To conclude, ShowPoint is a simple tool for anyone involved in the advertising business. It can display PPT shows remotely and scans continually for new content in a target directory. The ability to load only a single item does tend to limit the

power of the utility.
showpoint - a windows application showpoint is a free windows tool for playing ppt files at remote computers. It can play files from a target directory or a file location on a remote computer. It also can be used to automatically reload slideshows on a remote computer.
showpoint for windows -

innovative technology
for presentations
showpoint is a free
windows tool that lets
you play ppt files at a
remote computer. It can
play slideshows from a
target directory or a file
location on a remote
computer. It also can be
used to automatically
reload slideshows on a
remote computer. This
tool can be used for a

number of purposes
such as playing
presentations,
converting
presentations, creating
presentations, and for
sending presentations.
Additionally, you can
archive presentations
and other content on
your pc as you want.
showpoint now supports
ppt files that have been
downloaded from the

internet. To do so,
simply download the
additional software and
install it in your pc.

Once you have done
that, you can launch the
software to make
presentations easier to
create and to play them
at a remote computer.

Users need not worry
about the quality of the
file or the original
presenter because the

software makes those details irrelevant. showpoint is a free app that lets you play ppt files at a remote computer. The software can play files from a target directory or a file location on a remote computer. It also can be used to automatically reload slideshows on a remote computer. Additionally, you can

archive presentations
and other content on
your pc as you want.

ShowPoint Description
Online Slide Shows
with slide show
presentations The
Showpoint
slideshowers(TM) allows
online slide shows
without having to
download slide
presentations in any
other program (PPT,
PPTX, Flash, JPG, etc)

Interface • Showpoint features a simple and easy to use interface • The user can set up the slideshow online and control if it gets updated or not • The user can control the slideshows from their pc • The user can also upload more than one slideshow to the server • The user can also upload the PPT files from his/her local

drive • Also, the user can use the slideshow remotely with a presentation running for each visitor • The slideshow can be selected from the whole computer, or a specified directory on the computer • The user can also upload a PPT file to the server. • The slideshow can be viewed on remote PCs for the

current user, on the web, for all the registered users or for one of the computers • The slideshow can be viewed for the current user, on the web, for all the registered users or for one of the computers for all registered users. Online Creation of slideshows • Showpoint can be used to create slideshows online by

dragging and dropping slide objects into the slide area • The user can also use the special templates provided in the package. Uploading and downloading • Showpoint supports uploading of PPTs to the Showpoint Server, along with the slide objects (Images, Text objects, Hyperlinks, etc) • Showpoint can

download any slideshow for the current user, for all the registered users, for any computer or for one of the computers for all registered users.

Event Monitoring • Showpoint can also be used to monitor any events which may occur during the slideshow presentation (keywords, hyperlinks, web addresses, etc) • The

slideshow can be monitored from the server, from any computer or from all computers for all registered users.

Viewing of the slideshow

- Showpoint can be used to view the slideshows from any computer, from a website or from a remote PC where the presentation is running.

- The current user can control if the slideshow gets updated or not, from the home page of the website where the slideshow is being viewed.
- The user can also control the slideshow for the registered users.
- The user can also control the slideshow for the registered users.
- Showpoint can

What's New in the?

Publisher's Description:
Easy. Fun. Fast. Retro.
ShowPoint is an
advanced and easy-to-
use Power Point reader.
Unlike other
presentation readers, it
does not merely display
one PPT but all of them!
ShowPoint allows you to
display your PowerPoint
Presentations through

WebCams with amazing graphics, both on your local desktop and on remote WebCams, so you can share your presentations with your colleagues all over the world in an easy, simple way. Many ways to play presentations on the remote WebCams:
Display only the last displayed PowerPoint presentation. Display

the last displayed
PowerPoint presentation
for each session that
ends on the remote
WebCam. Display the
most recently played
PowerPoint
presentation. Display all
presentations in the
folder for one time.
Display all presentations
in the folder
periodically. Display
only the saved

presentations in the folder. Display all presentations in the folder for each session.

1-Click Play a show on-the-fly: With ShowPoint, playing PPTs is easier than ever. Just drag any PowerPoint presentation into ShowPoint and it will automatically start playing a preview. The presentation will not even open in your

default player. You can also play presentations by clicking Play, with your Mouse or using any of your keyboard keys. Choose the key you want to use and just press enter. 2-Keyboard Commands: With ShowPoint, clicking through your files and playing presentations has never been so easy. ShowPoint offers lots of

keyboard shortcuts so you can play, pause and stop your PPTs quickly and quickly. Just to give you an example, you can use: Ctrl+f - Fast Forward Ctrl+s - Pause Ctrl+r - Reverse Ctrl+p - Play Ctrl+o - Open the presentation Ctrl+a - Start the presentation all in one Ctrl+s - Stop the presentation Ctrl+q - Stop the presentation

on current slide Enter -
End the presentation
With ShowPoint, your
computer will be ready
to play all your favorite
PowerPoint Preset with
only few mouse clicks.
Automatically start
playing a PowerPoint
presentation while you
are logged in and
presenting: This is for
power users. ShowPoint
will search if the files in

the folder are all in PPT format and automatically start playing a preview for them. Many other features: - More than 20 skins to choose from, including skins for Macs and laptops. - Ability to browse your local directory. - Support for Windows
