What is the difference between the full version of Game Maker and the lite version . Descriptive and informative instruction manual with a comprehensive answer to all technical questions.Q: Why will this code not build in VSCode, but build fine in xcode? I am trying to build and run some javascript code, I am using vscode to build and run. Unfortunately, I can only build on xcode. I am using node js, express, mysql, redis, and mongoose for the backend

Below is the code that doesn't work. Any advice on why? `/** * Module dependencies. */ const express = require('express'); const app = express(); const bodyParser = require('body-parser') const path = require('path'); const cookieParser = require('cookie-parser'); const session = require('express-session'); const cors = require('cors'); const logger = require('morgan'); const mongoose = require('mongoose'); const redis = require('redis'); const db = mongoose.createConnection('localhost:27017/sampleapp', 'username', 'password'); var client = redis.createClient(); var port = 80; app.use(bodyParser.json()); app.use(bodyParser.urlencoded({ extended: false })); app.use(cookieParser()); app.use(session({ secret:'my secret', resave: true, saveUninitialized: true })); app.use(cors()); app.use('/api', require('./routes/api')) app.use(session({ resave: true, saveUninitialized: true })); app.use(bodyParser.json()); app.use(bodyParser.urlencoded({ extended: false })); app.use(cookieParser()); app.use(cors()); app.use('/api', require('./routes/api')) app.use(logger('dev')); app.use('/', (req, res) => { res.json({`
